Our engineering approach focuses on supporting our customers every need

### Engineering

We believe providing the right service and support is just as important as providing high quality lubricants. We provide a technical help line for all our customers and supply customers with a tailored service package to meet their individual requirements. Site surveys, assistance with LCCP audit compliance and training of personnel are just some of the services we offer.

### NSF Registered

To ensure compliance we provide you with a manual that contains the relevant data sheets, NSF certificates allergen statements and ISO certificates.

### Support

Our dispensing and storage solutions assist customers with best lubricant practices and meeting audit requirements.

To aid identification, we are able to supply colour coded aerosols, grease cartridges and grease nipple covers.

Dispensing pumps, grease guns and Oil Safe containers can be supplied to customers to facilitate ease of usage.

## Colour coding system to reduce cross contamination

### Application Equipment

#### Step 1:

Colour coded oil dispenser

Select one per oil grade

#### Step 2:

Foil backed application sticker

Select corresponding sticker

#### Step 3:

Food Grade Lubricant

Select corresponding sticker

#### Step 4:

Machine Part

Apply corresponding sticker

### Aerosol Identification

**Step 1:** NSF Registered Aerosol, Each aerosol has unique coding

Select one per oil grade

**Step 2:** Foil backed application sticker

Select corresponding sticker

**Step 3:** Machine Part

Apply corresponding sticker
