

Mobil Solutions for the Oil and Gas Industry: Extend the service life of machine components and reduce oil changes

Situation

One of Moove UK's Lubrication Engineers visited a platform in the UK sector of the North sea and carried out a comprehensive survey of the on-board lubrication practices, using Moove's industry leading, eight points of analysis system.

Recommendations

Our Lubrication Engineer made twenty-one recommendations to improve the reliability on the rig including:

- Product consolidation and storage
- Procedural improvements
- Contamination control
- Product upgrades for electric motor and pump lubrication
- Thorough, robust review of the lubrication database.

Benefits

By using our Mobil industrial lubricants and state-of-the-art expert technical services, Oil & Gas customers can extend the life of their assets, improve equipment reliability and enhance their lubrication practices.
