

# Moove solutions for the metalworking and manufacturing industry

## Extend the service life of tooling and Reduce coolant changes

### Cimstar 35-661-02 vs competition

- **Product used at 6% opposed to typically 10% or higher with competition**
- **25% improvement in tooling life**
- **Bio stability matched existing fluid life with being Boron and Formaldehyde biocide free**

#### Situation

One of Moove UK's Lubrication Engineers visited a well known automotive manufacturer to carry out a site evaluation of their water based metalworking fluids using Moove's industry leading, eight points of analysis system.

#### Recommendation

Our Lubrication Engineer made a recommendation to improve the reliability of their manufacturing by initiating a change of product to improve contamination control, increase tool life, reduce waste volumes going off site by using a longer life, more bio resistant fluid – whilst protecting the operators with new technology boron and formaldehyde free product.

#### Benefits

By using our Industrial Lubricants, state-of-the-art expert technical services metalworking companies can extend the life of their assets, improve equipment reliability whilst increasing productivity.

#### Potential Benefits

Reduced downtime

Enhanced equipment life

Efficient and cost-effective operations

Optimized lubrication practices and staff utilization

Industrial  
Lubricants

**Advancing  
Productivity™**

#### Advancing productivity

Helping you reach your Safety, Environmental Care\*\* and Productivity goals through our innovative lubricants and services is our highest priority. That's Advancing Productivity. And that's how we help you achieve your broader vision of success.

\* This proof of performance is based on the experience of a single customer. Actual results can vary depending upon the type of equipment used and its maintenance, operating conditions and environment, and any prior lubricant used.

\*\* Visit [mobil.com/industrial](http://mobil.com/industrial) to learn how certain Mobil-branded lubricants may provide benefits to help reduce environmental impact. Actual benefits will depend upon product selected, operating conditions and applications.
